Resumen conciso: Ayúdenos a presentar esta solución! Proporcione una explicación en 3 o 4 frases cortas.

This project addresses since 1995 the wellbeing and mental health of imprisoned families in Cochabamba, Bolivia. The initiative was born as a voluntary contribution to the integral approach of a day-care center in its work with children and adolescents living with one or both of their imprisoned parents. The Bolivian Jiu-Jitsu Association has been integrating this group in its daily judo and jiu-jitsu classes, while giving attention to the specific needs and possibilities of this social group. We have done this applying the theoretical and methodological approaches of community psychology.
