Resumen del Proyecto

Presentación del Proyecto!

Resumen conciso: Ayúdenos a presentar esta solución! Proporcione una explicación en 3 o 4 frases cortas.

El Fondo de Inversión Social ("FIS") es un fondo de inversión privado cuyo objetivo es invertir en empresas e instituciones sociales con necesidad de financiamiento para crecer, alcanzar autosustentabilidad y potenciar su impacto social. En el largo plazo, el FIS busca desarrollar una industria de intermediarios financieros especializados en emprendimientos sociales.

Tu solución

Country your work focuses on

If multiple countries, please list them here. If your solution targets an entire region, please select it below

Region(s) your solution focuses on:

Range of turnover in your target firms, in USD

Average turnover in USD of your target firm

Number of employees in your target firms

Average number of employees of your target firm

Specify the size, average and range of expected loans or investments in each target firm

What stage is your solution in?

Innovación

How does your proposed innovation leverage public intervention in catalyzing private SME finance?

What barriers does your proposed solution address?

If you checked any of these barriers, describe how your solution addresses them

Impacto

Provide empirical evidence of your proposed solution's success/impact at present. If your project is in the idea phase, please provide evidence that speaks to its potential impact

How many firms do you expect to reach?

What is the volume of private SME finance you aim to catalyze?

What time frame will be required to reach these targets?

Does your solution seek to have an impact on public policy?

What would prevent your solution from being a success?

Sostenibilidad

List all the funding sources that are required for the sustainability of this solution

Demonstrate how your proposed solution has the capacity to graduate from dependence on public finance. What is the time frame?

Demonstrate how your proposed solution will survive a potential loss of its largest private funding source

Please tell us what kind of partnerships, if any, could be critical to the greater success and sustainability of your innovation

Are there non-financial issues that could threaten the sustainability of your proposed solution?

Please tell us if your proposed solution aims to scale up through a high growth sector, expand immediately to multiple sectors, and/or scale up geographically
