Project Summary

Elevator Pitch

Concise Summary: Help us pitch this solution! Provide an explanation within 3-4 short sentences.

is profit organization.Providing health education to the public.

About Project

Problem: What problem is this project trying to address?

How to prevent diseases and also how to treat them.

Solution: What is the proposed solution? Please be specific!

The health of humanity has become a major problem nowadays .Mankind who are expected to have good health to work hard to improve the economy of their countries and even the world as a whole are not experiencing this, but are affected by many diseases such as; hapetitis B, cancer, fibroid, hypertension and etc.I would like to use this opportunity to draw the world's attention to how diseases can be treated and how to prevent them also. To start with, we must pray to God when we are affected by a disease. A major way to cure a disease is to pray and fast to God to heal us and also abstain from all sin .Exodus 15:26" And said if thou wilt diligently hearken to the voice of the LORD thy God, and wilt do that which is right in sight, and wilt give ear to his commandments and keep all his statutes .I will put none of these diseases upon thee, which I have brought upon the Egyptians: For I am the LORD that health thee."KJV and Isaiah 53:5" But he was

Impact: How does it Work

Example: Walk us through a specific example(s) of how this solution makes a difference; include its primary activities.

is not costly is very simple and natural

Sustainability

Marketplace: Who else is addressing the problem outlined here? How does the proposed project differ from these approaches?

my competitors are businessmen who sell materials that weakens the immune system.

Team

Founding Story

a year ago is when they found this solution.Most of us are biology students,so they learned it and is working great.
