Lost your direction in your further study? "Find your future" can help you find your future path in a easy way, You can help others who have the similar problem with you by contribute your experience in our forum.

About Project

Problem: What problem is this project trying to address?

Help youth to determine their own future path. Nowadays, there are a lots of secondary school graduated students lost their direction in their next step of education which require them to choose their major to study. Most of them are unable to find the field that they interested in and also capable of. This is the problem that my idea is going to solve.

Solution: What is the proposed solution? Please be specific!

The solution is to start a web app which can guide and lead youth to find their own major in study. The web app will ask several questions to the user which will lead user steps closer to their interest. The web app has most of the tertiary education (major, field, subject) information. After user found their interested major in study, the web app can list all the institution/university that offer the major by location (or any other categories). Besides that, groups of users can discuss a particular major in forum section.

Impact: How does it Work

Example: Walk us through a specific example(s) of how this solution makes a difference; include its primary activities.

A lost direction youth use our web app, answer simple and meaningful question that lead to his interest. After that list of major that user might capable in will be displayed to the user based on the result of questionnaire. After that, user can search and browse through relevant institution/ university by location or any others categories. Once they found their interested major and university, they can go to forum section to discuss with other experience user or contribute their own experience with others.

Sustainability

Marketplace: Who else is addressing the problem outlined here? How does the proposed project differ from these approaches?

There is no similar competitor in the market yet,

Innovation

Select the stage that best applies to your solution

Idea (you're poised to launch)

The Solution: Why is this solution innovative for your company and industry?

There are no much similar web app existed currently. Helping lost direction youth to find their future path is something more than innovative because it can help more innovative youth to use their innovative abilities in particular field.

Impact

What has been the impact of your solution to date?

It will help more youth find their future direction and make themselves become more confident. In this case, if more and more youth found their capable direction in their education, the particular field of study, the country, the world will also be benefit too.

What is your projected impact over the next 1 to 3 years?

More and more youth continue their tertiary education.

What barriers might hinder the success of your project? How do you plan to overcome them?

The difficulty of this project is the information gathering of the education fields, information of universities. But it can be overcome by gathering people who have the same goal and interest with me.

Sustainability

What is the benefit or value you're creating for your business?

It is benefit to all lost direction youth and also contribute to the education field. Helping those lost direction youth to find their path is really a good thing to do. It reduce the unemployment rate, reduce the number of youth who stop their education.

How are you leveraging internal resources (funds, time, knowledge, etc.) to support this initiative?

I will gather other people who have the same interest and goal with me and work on this project together.

Expand on your answer, explaining the long-term funding and support plan.

I can find institution/ education to support my ideas and also ask for funding from them. It is because this project benefit them in a way to help them find more capable students, in return I can advertise their institute/universities in the website,

Tell us about your partnerships across your company and externally that are key to your project's success.

People who have the same goal and interest work together and contribute together are the key to my project's success.

What internal support have you gotten for your project? What kind of push-back have you received?

N/A
