Project Summary

Elevator Pitch

Concise Summary: Help us pitch this solution! Provide an explanation within 3-4 short sentences.

A social enterprise, Habi Beauty and Wellness Center seeks to employ and empower the out of school youth (OSY) and unemployed women in the community and at the same time able to support impoverished children in terms of their nutritional and educational needs.

Specifically, within five years, this project will be able to:

1. Educate potential leaders from among the youth and women in the community and equip them with skills needed for training others and inculcate moral values that uphold socially-relevant and eco-friendly community enterprises;
2. Provide capacity-building in terms of livelihood skills such as basic cosmetology, massage therapy, and health and wellness skills;
3. Promote basic education among the disenfranchised youth through Alternative Learning System (ALS);
4. Provide nutritional and educational assistance to children in pre and primary school
