### Project Summary

#### Elevator Pitch

**Concise Summary: Help us pitch this solution! Provide an explanation within 3-4 short sentences.**

Composting is important for many reasons. The primary concern of composting is to create and curate nutrients for proper growth in climates. The ability to compost has the potential to save the world.

**WHAT IF - Inspiration: Write one sentence that describes a way that your project dares to ask, "WHAT IF?"**

what if composting saved your life

#### About Project

**Problem: What problem is this project trying to address?**

pesticides and soil degradation, nutritional value

**Solution: What is the proposed solution? Please be specific!**

composting with solar power, zero energy households, green roofs

### Impact: How does it Work

**Example: Walk us through a specific example(s) of how this solution makes a difference; include its primary activities.**

composting makes a difference because if you were to fill your trash with lawn material then it will continue to take up space in a landfill where things can naturally decompose. think of the waste at the curb as the things waiting to be put into the body.. the longer they stay there the more run down trash becomes. you see the example?

**Impact: What is the impact of the work to date? Also describe the projected future impact for the coming years.**

the impact is waste that can be composted is being filed away at a landfill and could be used to reuse energy in the garden to continue to fuel the body instead of fueling various waste in the landfill that may be toxic. decomposition takes longer than it would for green items and would be best to decay in a compost pile.

**Spread Strategies: Moving forward, what are the main strategies for scaling impact?**

reduce, reuse, recycle, show the world you really care. better the landfill by bettering yourself.

### Sustainability

**Financial Sustainability Plan: What is this solution's plan to ensure financial sustainability?**

**Financial Sustainability Plan: what is this solution's plan to ensure financial sustainability ?**

little to no budget

Team

**Founding Story**

i saw the opportunity on twitter the day i realized i needed to be the change. i had been reading this book called earth, published in the united kingdom it is an international read that has been guiding me since christmas!
