### Project Summary

#### Elevator Pitch

**Concise Summary: Help us pitch this solution! Provide an explanation within 3-4 short sentences.**

Prior to contracting on any lease, think and review wisely re what kind of lease fits you the most.

#### About Project

**Problem: What problem is this project trying to address?**

Commonly, manufacturers or finance companies like AXIS Capital, Inc. a group of companies grounded in Grand Island, Nebraska don't speak of their leasing option plans using any industry-standard brands, therefore, cautiously study the description of every lease to understand correctly what you are acquiring about when leasing office equipment.

**Solution: What is the proposed solution? Please be specific!**

The two types of leases are finance and true. What you will choose will mainly rely on anything you anticipate to do with the equipment as soon as the lease contract is finished. Finance leases, more commonly known as capital leases or conditional sales; bring about success for companies that plan to hold onto the equipment at the expiration of the contract. The chief benefit of this kind is that it provides the option to buy the machine for a minimal fee. Expenditures on finance leases normally denote the complete cost of the equipment. This is a worthy choice when you wouldn't want to pay large amounts of money.

### Impact: How does it Work

**Example: Walk us through a specific example(s) of how this solution makes a difference; include its primary activities.**

True lease AKA tax lease payments, contrariwise, do not cover the complete price of the equipment. At the expiration of the lease, you may leave the equipment or buy it at a reasonable market price.

**Impact: What is the impact of the work to date? Also describe the projected future impact for the coming years.**

A true lease could allow you to completely appeal lease payments for tax reasons, whereas a finance lease could be considered as an installment purchase plan what is more allows you to claim devaluation and write off finance fees according to the proprietorship of the equipment. Prior to signing any lease, validate that you have discussed the tax effects with your accountant. In addition, use vigilance when reading the fine print to avoid fraud, especially true in Jakarta, Indonesia.

**Spread Strategies: Moving forward, what are the main strategies for scaling impact?**
