eradicating poverty and illiteracy in rural areas

India

suresh yadav

Organization type:
nonprofit/ngo/citizen sector
Budget: < $1,000
Concise Summary: Help us pitch this solution! Provide an explanation within 3-4 short sentences.

To eradicate poverty in rural areas government should provide work for those who are below poverty level by doing this government can fulfill their work(which has to be done)and the poor people can earn money from this.then to eradicate illiteracy government should offer some basic needs such as (books, food), from this the poor people can send their children's to schools for food and books.

Solution: What is the proposed solution? Please be specific!

The basic needs for human being are food, shelter and clothing. The competition is about Urban Housing, the project is unique to which poor people are home less, my project leads to efface the poverty by that they can build their houses.
for the next three years there wont be any poor people without sufficient needs (food, clothing and shelter) and there wont be any illiterate children and by that child labor can also be abolished

Sustainability
For each selection, please explain the financial and non-financial support from each
How do you plan to grow and/or diversify your base of support in the next three years?

Collaboration
Please select your areas of intervention in the home improvement market
Labor, Rural development.

Is your innovation addressing barriers in the home improvement/progressive housing market? If so, please describe in detail your mechanisms of intervention
Are you currently collaborating with private companies, or have you partnered with private companies in the past? With which companies?
Please describe in detail the nature of the partnership(s)
Select the unit(s) with which the partnership was formed

Corporate social responsibility department, R&D department.
