Let's Cook Up a Better Future!

3 Billion people cook on open fire

A woman and a young child are sitting on the floor in a dimly lit, cluttered room. The woman, wearing a striped shirt and blue pants, is looking towards the camera with a somber expression. The child, wearing a pink shirt, is sitting behind her, looking towards the camera. In the foreground, a fire is burning in a traditional stove, with smoke rising from it. The room is filled with various items, including a metal pot hanging on the wall and a wooden structure in the background.
